

PRO PLUGGER CO2 KIT™

Tubeless Tire Repair

Part# 7109348

PRO PLUGGER TUBELESS TIRE REPAIR TOOL™ With the tool mounted it's just a quick pull to remove the tool and instantly plug your puncture before it becomes a flat. Insert a plug into the tool. Twist two plugs together if needed. Push tool into puncture. Pull to remove. Part of the plug will remain exposed.

CORE CO2 THREAD-ON INFLATOR™ Turn blue CO2 valve to CLOSED position. Thread on CO2 cartridge, thread inflator head onto valvestem. Turn blue CO2 valve back to OPEN to release CO2. CLOSE to stop flow.

Includes: 1 plug tool, 1 tool holster, 1 strap, 1 rubber mount, 1 presta core tool, 5 plugs, 2 zip ties, 1 adapter, 1 inflator, 1 CO2, 2 nuts, 2 bolts, 1 coupler

⚠ WARNING: Use caution when opening the package. Sharp edges enclosed. Keep away from young children. Follow the instructions carefully and call our customer service line below if there are any questions. An improperly plugged puncture can cause a flat, causing serious injury or death. CO2 cartridge must be completely empty before removal from inflator. An activated cartridge removed from an inflator is dangerous! Do not over-inflate tire as injury can result. Presta valve must be open prior to using the inflator. Never put fingers on metallic areas directly. Always hold cartridges by insulated protection. Do not discharge toward face or body.
